

# MAGFLUX- EX

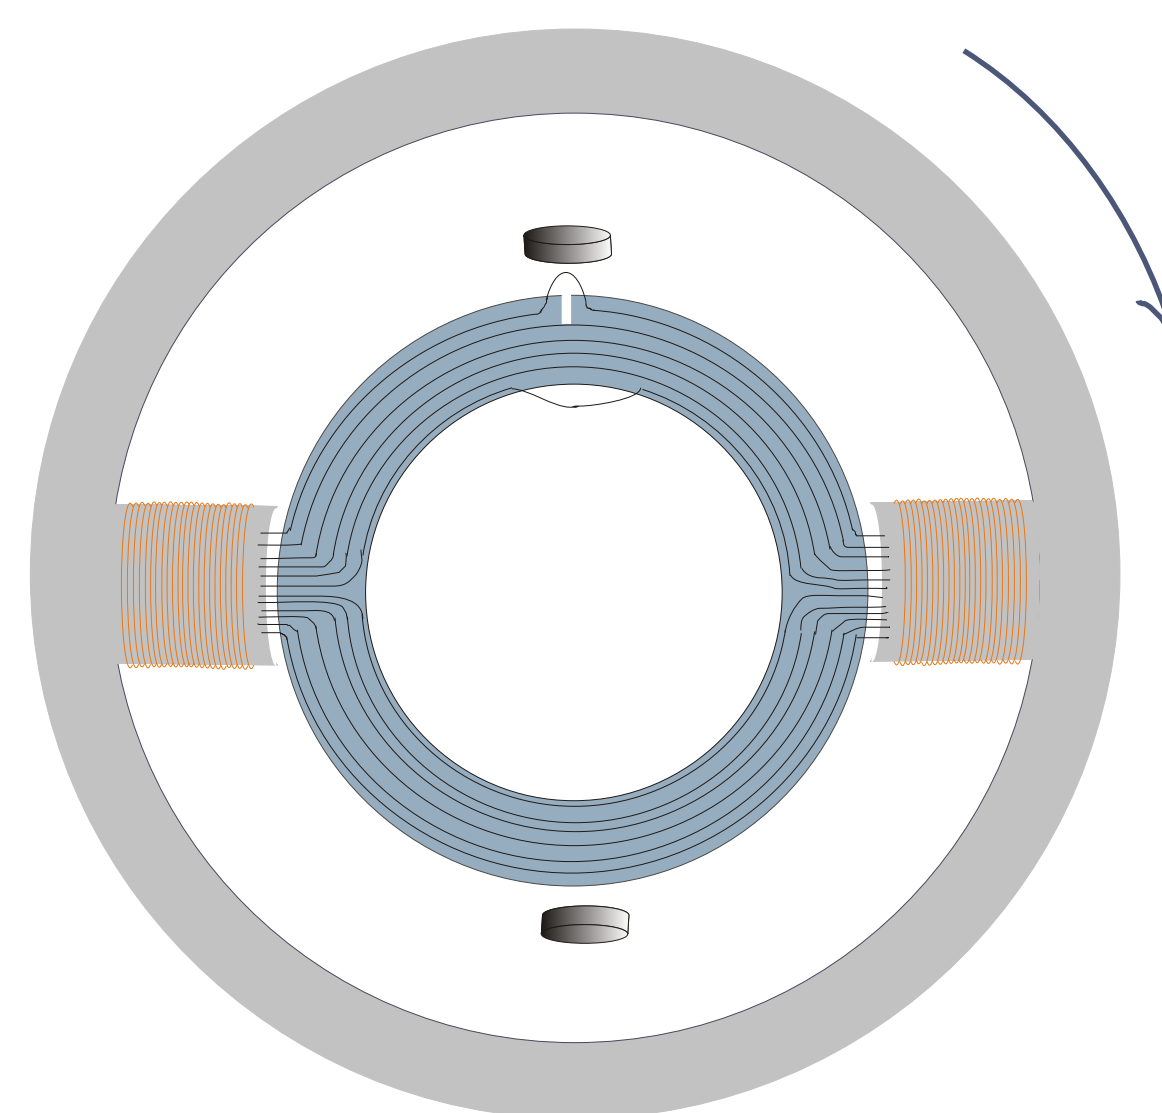

## Magnetic Leakage Flux Test System for Tubes

- MagFlux-RT for Rotary inspection for longitudinal defects
- MagFlux-ST for Static inspection for transverse defects
- Sensitive sensor arrays
- Separate ID and OD channels
- Up to 512 channels
- User-configurable displays
- Paint markers and encoders
- Automatic setup
- Windows XP operating system
- Extensive data logging and reporting, e-mail reports
- TCP/IP servers over ethernet
- Mechanical handling systems with sorting automation
- Demagnetization systems

ID and OD Defects can be separated in frequency domain
